

## Follow These Simple Steps:

1. Purchase 1 storage bin per closet (more if you have a lot you need to box up)
2. Purchase several packs of the same hangers
3. Set aside an afternoon and dig in:
  - Start by taking anything out that no longer fits, folding and placing in the bin
  - Organize closet by category - keep all t-shirts together, sweaters together, and so on....
  - Now organize each category by color from lightest to darkest
  - Organize all accessories, shoes and anything else that will remain in the closet
  - Lastly, clean out a spot in the bottom of the closet to store your bin.

*\*\*Reminder: Once bin is filled, don't forget to label with the sizes that are inside before storing away, and replace with a new bin as soon as possible before you go back to your old cluttered mess!\*\**

Now that you are finished, take a moment and enjoy your new space!
